

12. Dunk Tank

(Letter Combinations with -nk)

Dunk Tank

(Letter Combinations with -nk)

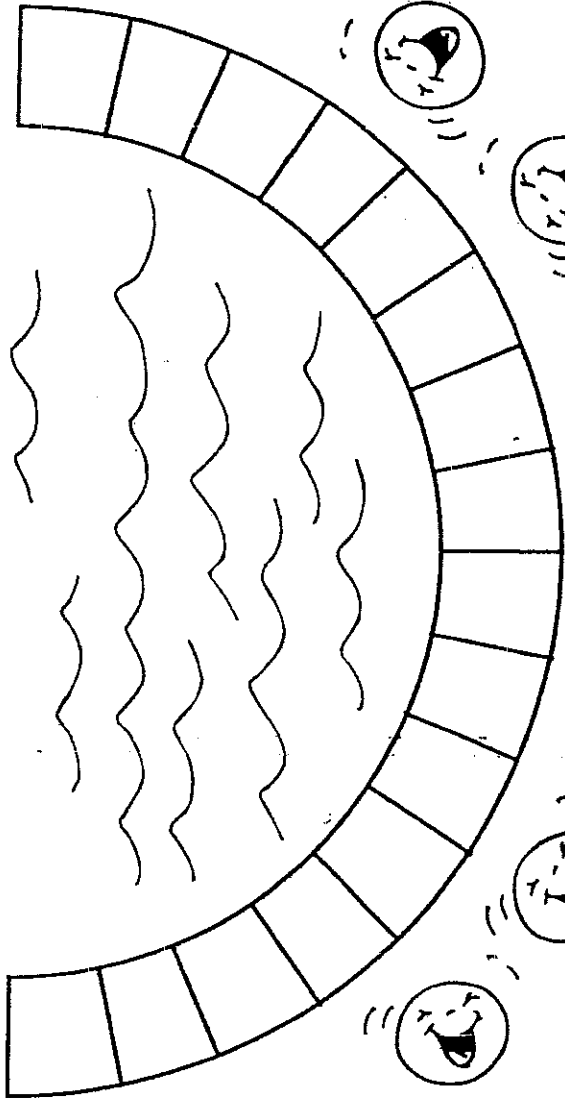

The game board is rectangular and divided into four quadrants by a central vertical line. In the center is a circular 'Dunk Tank' with wavy lines and a central area containing three cards: 'pink', 'think', and 'rink'. Surrounding the tank are four player sides, each with a vertical column of five spaces for word cards. The top side has spaces for '-nk', '-nk', 'str onk', and '-nk'. The right side has spaces for '-nk', 'chunk', '-nk', and '-nk'. The bottom side has spaces for '-nk', '-nk', 'wink', and '-nk'. The left side has spaces for '-nk', 'crank', '-nk', and '-nk'. There are also four small 'Dunk Tank' labels, one on each side, and a larger 'Dunk Tank' sign in the bottom-left corner.

To Play (4 players):
 Shuffle the word cards. Pile the cards face down in the playing area. Each player chooses a side of the game board to play on. Each player takes turns picking a card and reading the -nk letter combination word. The player places the card on the correct -nk combination space on the game board. If the space is already filled, the player puts the card in a discard pile. If a player picks up the DUNK! card, he/she must put all the cards on his/her spaces into the Dunk Tank and start all over again! If players run out of cards, the discard pile may be used. The first player to fill all of his/her -nk spaces is the winner. (If there are still spaces to fill but no discards, the player with the most cards is the winner.)

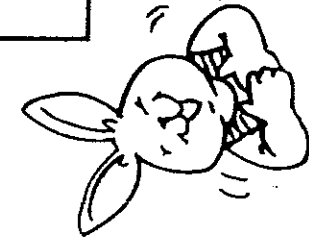

To Make:
 Duplicate the game board setup two times. Duplicate the word cards. Glue the word cards on to oak tag and laminate if desired. Trim the game board setups and glue them in the appropriate position to the inside of a file folder. Color and laminate if desired. Duplicate the "To Play" directions and the game label and cut out. Glue the label to the file folder tab. Glue the directions to the front of the file folder. Store the word cards in
