Football

(Long Vowel at the End with Mixed Syllable Patterns)

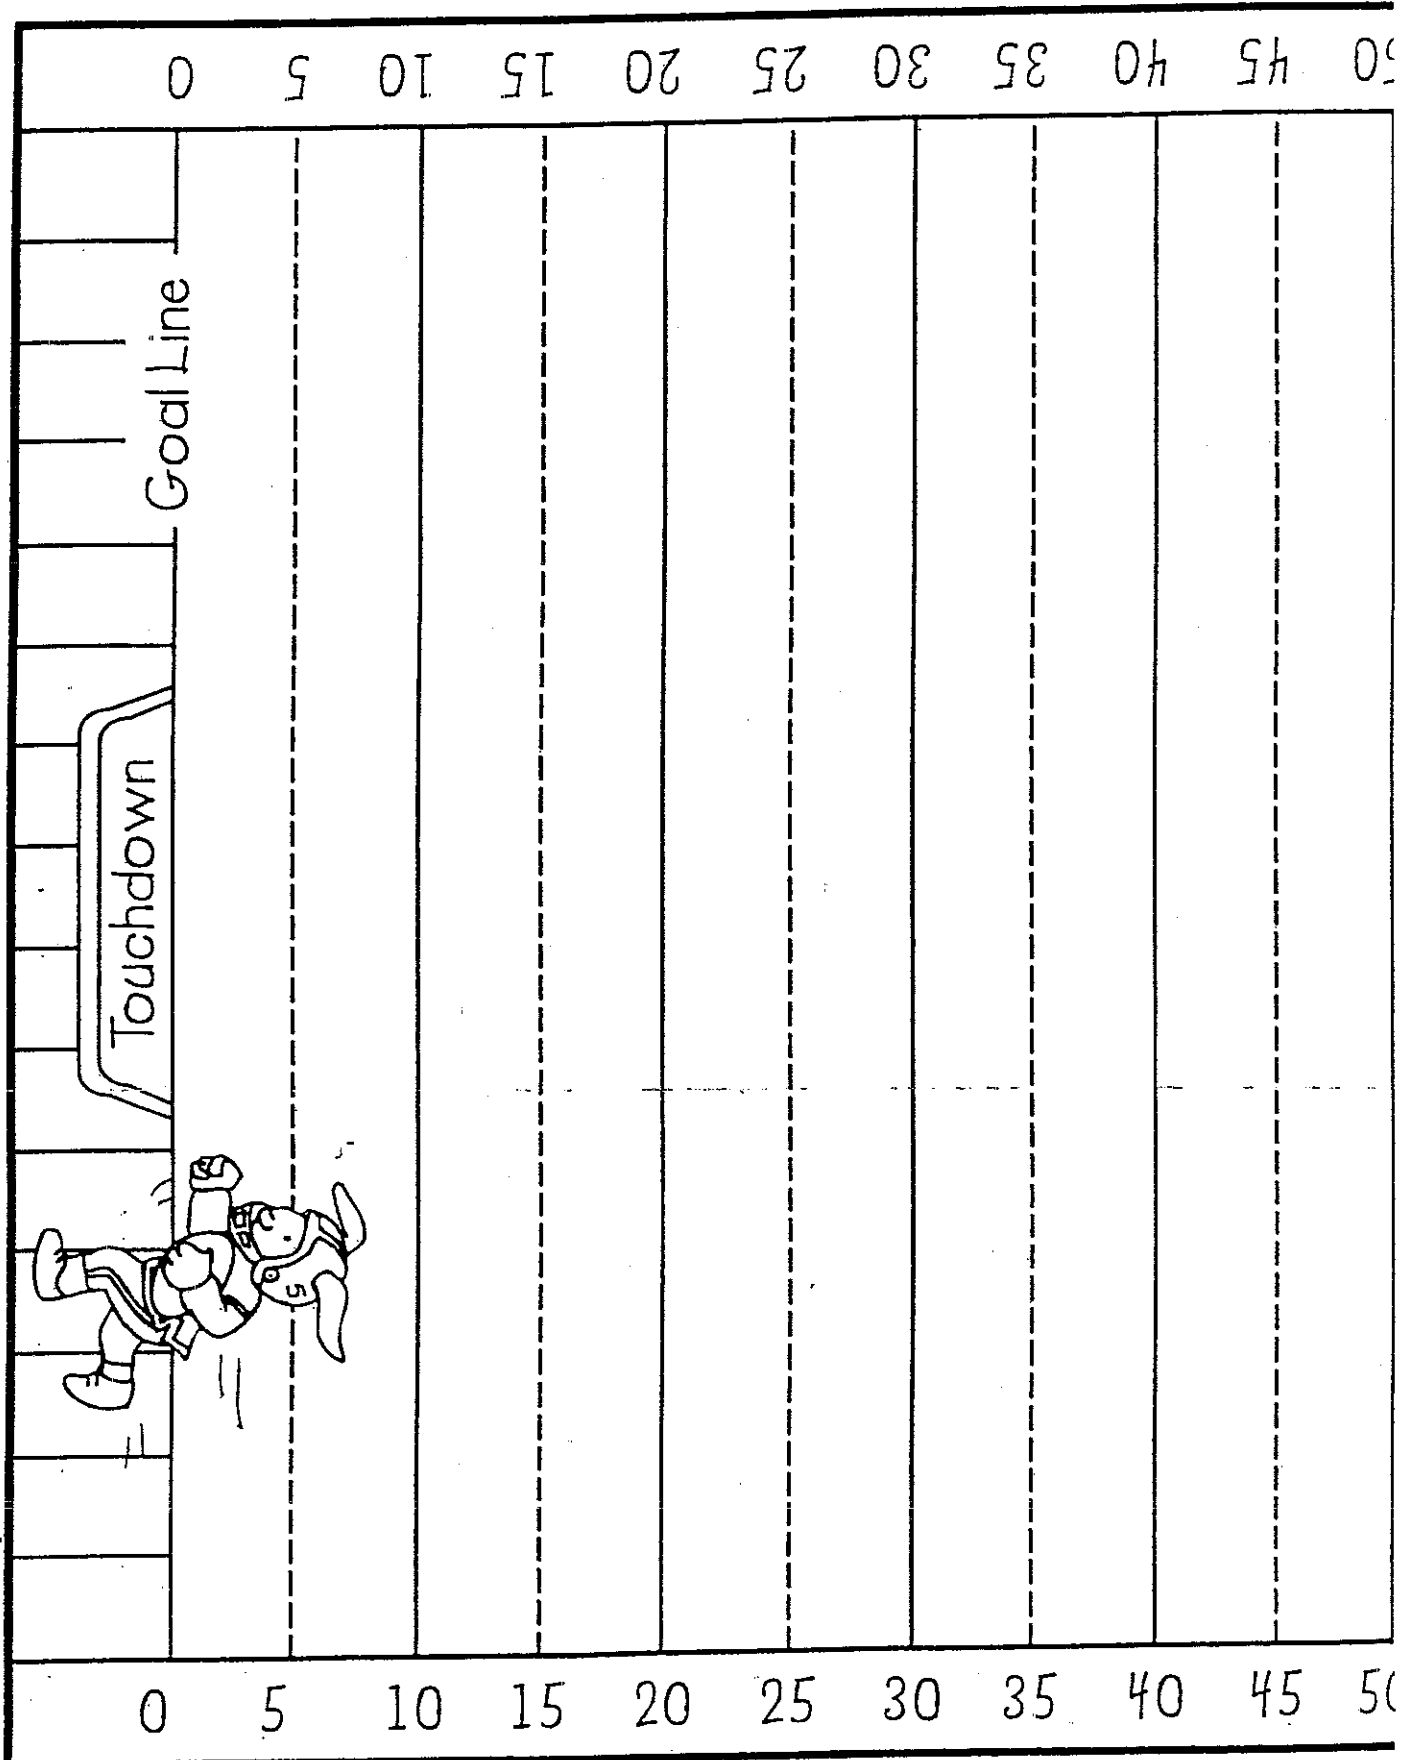

To Play (2 or 4 players):

Set out the game board, cards, and football marker. Shuffle and put the word cards face down in the playing area. Set the football marker in the center on the 50-yard line. Players choose which goal to play. If there are four players, the two on each team can take turns. The first player turns a word card over and reads and blends the segmented or split word on the card, e.g., ba-con = bacon. If correct, the player moves the football the number of yards indicated on the card toward his/her goal. If the player is not correct, the player stays on his/her original starting line. If a card tells a player to go back, the player must move the football marker back the number of yards indicated. The first player or team that reaches a Touchdown zone is the winner. Players may play 3 games to see who is the super winner with the most touchdowns.

To Make:

Duplicate the board game two times. Trim off 50-yard line from one copy. Glue game board to the inside of a file folder. Duplicate cards and marker. Glue the cards and marker on to oak tag. Color and laminate if desired. Cut out the cards and marker and store in a zip-lock bag. Place the bag in a clasp manila envelope. Glue the envelope to the back of the file folder. Duplicate the "To Play" directions and the game label and cut out. Glue the
